NOTE: Exempt From Fees

Re: Application for New Non-Commercial Educational
Radio Station, Channel 219, Leonardtown,
Maryland

Dear Ms. Searcy:

On behalf of the Greater Washington Educational Telecommunications Association, we transmit herewith, in triplicate, on FCC Form 340, an application for a new noncommercial educational FM radio station on Channel 219 at Leonardtown, Maryland.

This application seeks a construction permit for a non-commercial educational FM facility and the application qualifies as a noncommercial educational licensee. Therefore, this application is exempt from filing fee requirements pursuant to Section 1.1112 of the Commission's Rules.

Should any questions arise concerning this matter, kindly contact this office.

Respectfully submitted,

Margaret L. Miller

Section II - LEGAL QUALIFICATIONS

Name of Applicant

Greater Washington Educational Telecommunications Association, Inc.

1. Applicant is: (Check one box below)

- ☐ (a) governmental or public educational agency, board or institution
- ☐ (b) private nonprofit educational institution
- ☒ (c) Other (specify)

2. For applicants 1(c) only, describe in an Exhibit the nature and educational purposes of the applicant.

Exhibit No.

A

3. For applicants 1(c) applying for a new noncommercial educational television station only, describe in an Exhibit how the applicant's officers, directors and members of its governing board are broadly representative of the educational, cultural and civic segments of the principal community to be served.

Exhibit No.

NA

4. Describe in an Exhibit how the proposed station will be used, in accordance with 47 C.F.R. Section 73.503 or Section 73.621, for the advancement of an educational program.

Exhibit No.

A

5. Is there any provision contained in any by-laws, articles of incorporation, partnership agreement, charter, statute or other document which would restrict the applicant in advancing an educational program or complying with any Commission rule, policy or provision of the Communications Act of 1934, as amended?

☐ Yes ☒ No

If Yes, provide particulars in an Exhibit.

Exhibit No.

NA

CITIZENSHIP AND OTHER STATUTORY REQUIREMENTS

6. (a) Is the applicant in violation of the provisions of Section 310 of the Communications Act of 1934, as amended, relating to interests of aliens and foreign governments? (See Instruction B to Section II.)

☐ Yes ☒ No

(b) Will any funds, credits or other financial assistance for the construction, purchase or operation of the station(s) be provided by aliens, foreign entities, domestic entities controlled by aliens, or their agents?

☐ Yes ☒ No

If the answer to (b) above is Yes, attach an Exhibit giving full disclosure concerning this assistance.

Exhibit No.

NA

7. (a) Has an adverse finding been made or an adverse final action taken by any court or administrative body with respect to the applicant or parties to the application in a civil or criminal proceeding, brought under the provisions of any law related to the following: any felony; mass media related antitrust or unfair competition; fraudulent statements to another governmental unit; or discrimination?

☐ Yes ☒ No

(b) Is there now pending in any court or administrative body any proceeding involving any of the matters referred to in (a) above?

☐ Yes ☐ No

N/A, But See

If the answer to (a) and/or (b) above is Yes, attach as an Exhibit a full disclosure of the persons and matters involved, including an identification of the court or administrative body and the proceeding (by dates and file numbers), a statement of the facts upon which the proceeding is or was based or the nature of the offense alleged or committed, and a description of the current status or disposition of the matter. Where the requisite information has been earlier disclosed in connection with another application or as required by 47 U.S.C. Section 1.85(c) in the case of adjudicated proceedings, the applicant need only provide: (i) an identification of that previous submission by reference to the file number in the case of an application, the call letters of the station regarding which the application or Section 1.85 information was filed, and the date of filing; and (ii) a description of the current status or disposition of the previously reported matter.

Exhibit No.

B

PARTIES TO APPLICATION

8. Complete the following Table with respect to all parties to this application:

(NOTE: If the applicant considers that to furnish complete information would pose an unreasonable burden, it may request that the Commission waive the strict terms of this requirement with appropriate justification.)

INSTRUCTIONS: If applicant is a corporation or an unincorporated association with 50 or fewer stockholders, stock subscribers, holders of membership certificates or other ownership interests, fill out all columns, giving the information requested as to all officers, directors and members of governing board. In addition, give the information as to all persons or entities who are the beneficial or record owners of or have the right to vote capital stock, membership or ownership interests or are subscribers to such interests. If the applicant has more than 50 stockholders, stock subscribers or holders of membership certificates or other ownership interests, furnish the information as to officers, directors, members of governing board, and all persons or entities who are the beneficial or record owners of or have the right to vote 1% or more of the capital stock, membership or ownership interests. If applicant is a governmental or public educational agency, board or institution, fill out columns (a), (b), and (c) as to all members of the governing board and chief executive officers.

Name and Residence Address(es) (a)	Office Held (b)	Director or Member of Governing Board		% of: Ownership (O) or Voting Stock (VS) or Membership (M) (d)

SEE <u>EXHIBIT C</u>				

Section 11 - LEGAL QUALIFICATIONS (Page 3)

9. Does the applicant, or any party to the application, have a petition to migrate to the expanded band (1605-1705 kHz) or a permit or license either in the existing band or expanded band that is held in combination with the AM facility proposed to be modified herein?

☐ Yes ☒ No

If Yes, provide particulars as an Exhibit.

Exhibit No.
NA

10. Does the applicant or any party to this application have, or have they had, any interest in:

(a) a broadcast station, or pending broadcast station application before the Commission?

☒ Yes ☐ No

(b) a broadcast application which has been dismissed with prejudice by the Commission?

☐ Yes ☒ No

(c) a broadcast application which has been denied by the Commission?

☐ Yes ☒ No

(d) a broadcast station, the license of which has been revoked?

☐ Yes ☒ No

(e) a broadcast application in any pending or concluded Commission proceeding which left unresolved character issues against the applicant?

☐ Yes ☒ No

If the answer to any of the questions in (a)-(e) above is Yes, state in an Exhibit the following information:

Exhibit No.
D

- (1) Name of party having interest;
- (2) Nature of interest or connection, giving dates;
- (3) Call letters of stations or file number of application or docket; and
- (4) Location.

SECTION III - FINANCIAL QUALIFICATIONS

Note: If this application is for a change in an operating facility, DO NOT fill out this Section.

1. Is this application contingent upon receipt of a grant from the National Telecommunications and Information Administration? ☒ Yes ☐ No
2. Is this application contingent upon receipt of a grant from a charitable organization, the approval of the budget of a school or university, or an appropriation from a state, county, municipality or other political subdivision? ☐ Yes ☒ No

NOTE: If either Questions 1 or 2 is answered "Yes," your application cannot be granted until all of the necessary funds are committed or appropriated. In the case of grants from the National Telecommunications and Information Administration, no further action on your part is required. If you rely on funds from a source specified in Question 2, you must advise the F.C.C. when the funds are committed or appropriated. This should be accomplished by letter amendment to your application, in triplicate, signed in the same manner as the original application, and clearly identifying the application to be amended.

3. The applicant certifies, except as noted above, that sufficient net liquid assets are on hand or that sufficient funds are available from committed sources to construct and operate the requested facilities for three months without additional funds. ☒ Yes ☐ No

SECTION IV - PROGRAM SERVICE STATEMENT

Attach as an Exhibit, a brief description, in narrative form, of the planned programming service relating to the issues of public concern facing the proposed service area.

Exhibit No.

A

NOTE: No program service statement need be filed where the proposed station's programming would be wholly "instructional" as that type of programming is defined in the Instructions to this Section.

SECTION VI - EQUAL EMPLOYMENT OPPORTUNITY PROGRAM

1. Does the applicant propose to employ five or more full-time employees?

☐ Yes ☒ No

If Yes, the applicant must include an EEO program called for in the separate Broadcast Equal Employment Opportunity Program Report (FCC 396-A).

SECTION VII - CERTIFICATION

1. Has or will the applicant comply with the public notice requirements of 47 C.F.R. Section 73.3580?

☒ Yes ☐ No

2. By checking Yes, the applicant certifies that, in the case of an individual applicant, he or she is not subject to a denial of federal benefits that includes FCC benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. 862, or, in the case of a non-individual applicant (e.g., corporation, partnership or other unincorporated association), no party to the application is subject to a denial of federal benefits that includes FCC benefits pursuant to that section. For the definition of a "party" for these purposes, see 47 C.F.R. Section 1.2002(b).

☒ Yes ☐ No

The APPLICANT hereby waives any claim to the use of any particular frequency as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests an authorization in accordance with this application. (See Section 304 of the Communications Act of 1934, as amended.)

The APPLICANT acknowledges that all the statements made in this application and attached exhibits are considered material representations, and that all exhibits are a material part hereof and incorporated herein.

The APPLICANT represents that this application is not filed for the purpose of impeding, obstructing, or delaying determination on any other application with which it may be in conflict.

In accordance with 47 C.F.R. Section 1.65, the APPLICANT has a continuing obligation to advise the Commission, through amendments, of any substantial and significant changes in information furnished.

WILLFUL FALSE STATEMENTS MADE ON THIS FORM ARE PUNISHABLE BY FINE AND/OR IMPRISONMENT (U.S. CODE, TITLE 18, SECTION 1001), AND/OR REVOCATION OF ANY STATION LICENSE OR CONSTRUCTION PERMIT (U.S. CODE, TITLE 47, SECTION 312(a)(1)), AND/OR FORFEITURE (U.S. CODE, TITLE 47, SECTION 503).

I certify that the statements in this application are true and correct to the best of my knowledge and belief, and are made in good faith.

FCC NOTICE TO INDIVIDUALS REQUIRED BY THE PRIVACY ACT AND THE PAPERWORK REDUCTION ACT

The solicitation of personal information requested in this application is authorized by the Communications Act of 1934, as amended. The Commission will use the information provided in this form to determine whether grant of this application is in the public interest. In reaching that determination, or for law enforcement purposes, it may be necessary to refer personal information contained in this form to another government agency. In addition, all information provided in this form will be available for public inspection. If information requested on the form is not provided, processing of the application may be delayed or the application may be returned without action pursuant to the Commission's rules. Your response is required to obtain the requested authority.

Public reporting burden for this collection of information is estimated to vary from 78 to 302 hours 20 minutes with an average of 171 hours 36 minutes per response. These estimates include the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, can be sent to the Federal Communications Commission, Information Resources Branch, Room 416, Paperwork Reduction Project, Washington, D.C. 20554, and to the Office of Management and Budget, Paperwork Reduction Project (3060-0034), Washington, D.C. 20503.

THE FOREGOING NOTICE IS REQUIRED BY THE PRIVACY ACT OF 1974, P.L. 93-579, DECEMBER 31, 1974, 5 U.S.C. 552(a)(3), AND THE PAPERWORK REDUCTION ACT OF 1980, P.L. 96-511, DECEMBER 11, 1980, 44 U.S.C. 3507.

EXHIBIT A

This exhibit responds to items 2. (nature and educational purposes of the applicant) and 5. (advancement of an educational program) of Section II., as well as Section IV. (program service statement) of FCC Form 340 containing WETA's application to construct a public radio facility to serve the citizens of St. Marys County, Maryland and the Northern Neck area of Virginia.

The Applicant, the Greater Washington Educational Telecommunications Association, is a non-profit educational telecommunications corporation, chartered to provide public broadcasting services to the citizens of the Greater Washington area and the nation. This facility will provide first public radio service to more than 100,000 residents of St. Marys County, Maryland and the Northern Neck area of Virginia.

WETA's program policies for this proposed station will be to respond to the community needs and to comply with all program related requirements of the Communications Act and the FCC's rules and policies. The proposed facility will rebroadcast the programming of noncommercial educational FM Station WETA, licensed to GWETA. WETA-FM regularly contributes exceptional local regional and national productions and program-related features to both National Public Radio and American Public Radio. The station is a member of both networks.

WETA has been at the forefront of public broadcasting since it first began broadcasting television programs more than 30 years ago. As the producer of Congressional hearings such as the Watergate and Anita Hill hearings, and less controversial but no less important confirmation hearings of several cabinet members as new President's implement their new administrations, WETA helps bring our Government to its viewers and listeners. As the producer of "The Civil War", "The McNeil - Lehrer NewsHour", and Washington Week in Review, WETA helps us understand better who we are as a people and a society.

While WETA is not a traditional educational institution, both direct and life-long learning education are central to its purpose as proved by its record as a producer and the many relationships it has developed and maintained with educational institutions throughout its history. Attached as an addendum to this exhibit is an overview of WETA's educational activities. Titled "WETA Educational Outreach Department: Fostering Life-Long Learning Through Broadcast *and Beyond...*," the document demonstrates WETA's involvement in and commitment to education.

WETA's first studios were located in Arlington County school property. The station later moved to space at Howard University, and is currently in the process of developing a new facility with George Washington University which will house WETA studios and offices as well as classrooms. WETA has had extensive off-air involvement with each of its educational partners, including among other things, student internships.

WETA's founder, Elizabeth Campbell, spent a career in education, including teaching and administration at the college level, and service as the first woman appointed to the Arlington County School Board, where she served for many years. In addition to Ms. Campbell, who remains active in WETA as a volunteer and member of its Board of Directors, several WETA Board Members are educators, including Floretta McKenzie, Ph.D, who served for many years as Superintendent of DC Public Schools and as Deputy Assistant Secretary of Education, E. David Fowler, Dean, George Washington University, Roger Wilkins, college professor, Darlene Mickey, Member, Arlington School Board, and Edward P. Eagles, teacher, St. Albans School.

Below is the WETA Mission Statement, which indicates the institution's purpose and mission as a broadcaster and producer, as well as the place education plays in its work:

WETA MISSION STATEMENT
(Adopted February 17, 1993)

As an independent, non-profit, public broadcaster and producer, WETA serves its viewers, listeners, and members with programs of distinctive quality, compelling interest, and broad audience appeal. WETA's programming is distinguished not only by its immediate impact on audiences, but by its extended value as education, as community service, and as universal access to excellence in television and radio. As "the nation's station and the community's voice," WETA places special emphasis on programs that reflect Washington's unique role as a major metropolitan area, as the national capital, and as a world-class center for cultural life and international affairs.

In addition, attached to this exhibit is Article I, Names and Purposes of the GWETA By-Laws. The purposes and mission of the GWETA are fully applicable to the operation of the facility proposed here.

EXHIBIT A1

**GREATER WASHINGTON EDUCATIONAL
TELECOMMUNICATIONS ASSOCIATION, INC.
BY-LAWS**

ARTICLE I

- Names and Purposes -

The name of the Corporation is Greater Washington Educational Telecommunications Association, Incorporated.

The Corporation is organized as a private, non-governmental corporation under the laws of the District of Columbia to furnish non-profit and non-commercial educational radio and television broadcast services to the Greater Washington Area, and to provide high quality cultural and public affairs programs for national as well as local distribution to all non-commercial stations throughout the United States and its possessions. To that end, the Corporation is empowered to obtain and hold appropriate Authorizations from the Federal Communications Commission; to construct, operate and maintain non-commercial educational radio and television stations used primarily for transmitting education, public affairs, cultural, and entertainment programs for serving the educational and other public needs of the community, pursuant to the rules and regulations of the Federal Communications Commission governing non-commercial educational radio and television stations; to obtain and to hold by contribution, deed, or lease real or personal property and funds to be used in connection with the operation of radio and television stations; and to solicit and accept, in trust or otherwise, money and property to be used for these purposes.

The Nation's Station
The Community's Voice

Television 26 and Radio FM91

**WETA EDUCATIONAL OUTREACH DEPARTMENT:
FOSTERING LIFE-LONG LEARNING THROUGH BROADCAST
AND BEYOND.....**

FACT SHEET

WETA public television and radio is an educational and community resource serving the Greater Washington Area. For more than 30 years WETA has produced and broadcast quality programs that address the needs and interests of our local and national audiences. Since its founding, WETA has recognized television's potential as a teaching tool in the schools and as a vehicle for life-long learning.

WETA's objective is to understand and creatively respond to the demands of today's classrooms, workplaces, day care centers, homes and communities by building upon what we already have: a history of outstanding educational programming, strong community and business partnerships, technological resources and know-how, and an established commitment to excellence.

Four out of five teachers agree that instructional television and video enables them to be more creative in their teaching.

Educational outreach in the schools: a teacher's helper

In addition to broadcasting substantive and entertaining educational programming ideal for the classroom, WETA's Educational Outreach Department continues to support the changing needs of students and teachers by...

- producing and providing teachers across the country with creative curriculum materials including: teacher's guides, videos and audio cassettes of WETA programs. (Approximately 50 teacher's guides produced by WETA are being used by middle and high school teachers throughout the U.S.);
- hosting learning-related teleconferences for the educational community on the following topics: adult and juvenile literacy, school restructuring, educational policy, and teacher training;
- distributing programming information to area schools which allows teachers to plan ahead, integrating public television in their daily lessons;
- coordinating with education experts and developing supportive training programs and strategies that address today's teacher's needs, including the introduction of new technologies, imaginative teaching strategies and critical viewing skills.

WETA's Educational Outreach Department serves the District of Columbia as well as 35 counties in Maryland, Virginia and West Virginia.

In the community: a link

WETA provides a community service. Through our programming, we seek to inform, inspire, entertain and promote understanding amongst the communities we serve. We take pride in Greater Washington's communities and celebrate their diversity and rich resources. Our goal in Educational Outreach is to use public television/radio programming as the backdrop to address vital community issues -- providing organizations and individuals with a path to action by...

- working within the community to build partnerships with libraries, day care associations, health service organizations, and cultural associations;
- providing informational hotlines for educational materials, services and programming to the community;
- promoting cultural awareness of all its communities through special programming and outreach projects. Educational and cultural awareness theme months include: Black History Month, Hispanic Heritage Month, Gay Pride Month, Asian Pacific Heritage Month, and Month of the Young Child;
- informing area schools, libraries and community organizations or agencies of upcoming programs, events and teleconferences;
- linking the community to resources available to them via on-air spots and printed materials.

Over forty percent of WETA programming is for children. By serving families and children, WETA's Educational Outreach is influencing the future of our society.

For children and families: a resource

WETA encourages a lifetime of learning: serving people of all ages, helping children to start school ready to learn and understanding the needs of its youngest viewers and their families. WETA's Educational Outreach...

- enhances the quality of teaching in day care centers and prepares our community's children to begin school ready to learn. By supporting day care providers and parents with training and materials from programs such as *Sesame Street* Preschool Educational Program (PEP) and *Mister Rogers' Neighborhood* Child Care Project, WETA has helped more than 2,000 pre-school aged children in the Greater Washington Area -- teaching innovative approaches to encourage interactive viewing, learning and social skills;
- reaches a diverse audience. Its locally produced series, *Nine Months*, designed to educate expectant mothers about prenatal care, went beyond the TV screen and into the community by providing prenatal care informational kits, videotapes, workshops, and an informational, community hotline.

EXHIBIT B

In the Memorandum Opinion and Order regarding the FCC's policy on character qualification in broadcast licensing, FCC 92-448 (released October 9, 1992), at ¶ 9, the Commission determined that broadcast applicants should no longer be required to report pending litigation, as this requirement imposes substantial burdens on many applicants, including institutional applicants such as Greater Washington Educational Telecommunications Association, Inc. However, if necessary, the applicant will, upon request of the FCC, undertake to collect and provide information to the Commission with respect to pending litigation matters.

EXHIBIT D

The Greater Washington Educational Telecommunications Association ("GWETA") currently holds license to noncommercial educational UHF Channel 26 (WETA-TV) and noncommercial educational FM 90.9 (WETA-FM) in Washington, D.C. In addition, GWETA is permittee of a noncommercial educational FM radio facility at 89.1 FM in Hagerstown, Maryland (WETH-FM).

GWETA has the following applications pending before the Commission:

FCC File No. BRET-910603KG

License renewal application for
Station WETA-TV, Washington,
D.C.

On June 8, 1993, GWETA filed an application for license to cover construction of Station WETH(FM), Hagerstown, MD. FCC File No. BLED-930608KA. WETH(FM) is operating pursuant to program test authority.

Two GWETA Board members have interests in other media:

E. William Henry (Board Member) is Owner of 51% of WITT-AM and WRNX-FM, Amherst, MA (licensee is Hampshire County Broadcasting Company Limited Partnership)

Eddie N. Williams (Board Member) is an investor in D.C. Cablevision, franchisee of the cable television system serving Washington, D.C.

EXHIBIT F

Request for Waiver of Section 73.1125

The Greater Washington Educational Telecommunications Association (GWETA) hereby requests a waiver of Section 73.1125 of the Commission's rules in order to operate its proposed new noncommercial educational FM station at Leonardtown, Maryland, as a satellite station without a main studio in the city of license. For the reasons which follow, the applicant believes that the public interest would be served by a waiver of the rule.

GWETA's application for a new noncommercial educational station on FM Channel 219B at Leonardtown, Maryland contemplates that the proposed station will, at least for the present, originate no programming locally and will, in essence, be operated as a satellite station for the educational radio programming originated by noncommercial educational Station WETA-FM, 90.9 MHz, Washington, DC, which is licensed to the applicant.

The applicant is a nonprofit corporation, chartered in the District of Columbia. GWETA's mission is to provide public broadcasting services to the people of the Greater Washington area and the Nation, which it does through WETA-FM and WETA-TV26. GWETA is committed to providing high quality public radio service to the Leonardtown area, which is not currently available. The size of the population to be served, the lack of potential institutional support in the St. Mary's County area, and the demographic makeup of that population make it unlikely that a stand-alone public radio station could be built or operate in that area to provide such a service.

A waiver of the main studio rule is in the public interest because the proposed satellite station at Leonardtown would fulfill GWETA's mission to provide service to as wide an audience as possible, and permit the community of service to receive public radio, in a manner consistent with the realities of the present public broadcasting funding situation.

This proposal also seeks to fulfill Congress's policy to make public broadcasting available to all Americans, 47 U.S.C. § 396(a), and to fulfill the similar objective of the Public Telecommunications Facilities Program -- to provide public radio service to all Americans. The proposed facility will provide a first public radio service to approximately 125,000 residents of Maryland and Virginia who do not currently have access to the service.

The proposed station's programming would be responsive to the problems, needs and interests of the Leonardtown area. WETA currently provides a program schedule that includes classical music and news from National Public Radio and American Public Radio, including ALL THINGS CONSIDERED, MONITORADIO, and MARKETPLACE, as well as other national programs of local, regional, and national interest. To this time

public radio service, which is subsidized in part by federal appropriations, has not been available to the people of the area to be served. Moreover, programming responsive to the needs of the Leonardtown community are already broadcast over WETA, insofar as events in the Nation's capitol and Greater Washington area affect the broader Potomac/Chesapeake Bay region. For example, during the period of June 10 to June 15 WETA broadcast the following news stories as part of the nationally syndicated program from National Public Radio, "All Things Considered": 1) "Bernie Fowler Day," a report on a Maryland State Senator who has become a local legend because of his work to save the Chesapeake Bay; 2) "Cholesterol Studies," a review of a report from federal health authorities showing that Americans are lowering their cholesterol levels; 3) "U.S. Peacekeepers to Macedonia," a report on the deployment of 300 American troops to support an international observer mission in Macedonia. St. Mary's County contains extended coastline on the Chesapeake Bay, health concerns are common to all Americans, and the main employer in St. Mary's County is the Patuxent River Naval Air Station, so any military news is of interest to its citizens. In addition, WETA itself is quite active in recording, producing, and broadcasting local concerts, conducting interviews and producing other programs for the people of the region, including the Greater Washington area.

While designed primarily to rebroadcast WETA-FM, this facility will be capable of providing a separate service from the studios of WETA. Such separate broadcast capability will allow for programs of specific interest (such as local election results) to the people of the Leonardtown area. WETA will be able to provide local events announcements, weather, and emergency service to the people of the area by this means.

WETA will also serve the St. Mary's County area by including the area in the extensive cultural events coverage (such as concerts) it does currently on WETA-FM. Every weekday evening from 4:00 - 4:30 p.m., WETA presents a magazine program which includes reviews of local cultural events such as theater and music performances. St. Mary's College, in Historic St. Mary's City is a major presenter of cultural programming including performances by its renowned piano faculty. St. Mary's College presents its performances both in the St. Mary's County area and in the Washington, D.C. Metropolitan area, and WETA's coverage of these events will build awareness of the availability of these services in St. Mary's County and among the larger WETA audience. Such coverage will benefit the new community of service by alerting residents to events in their own community, but will inform them of events happening in the greater Washington area. It will also inform the current WETA audience of events of interest in the St. Mary's County area, with a resultant increase in attendance at those events.

GWETA will ascertain the unique interest of the community through contact with community leaders. In preparing this application it has already consulted members of the community. WETA intends to continue this contact with the community on a regular basis, in part through providing the required toll-free number connected with the WETA-FM studios, so that residents may easily contact the station. Moreover,

GWETA will seek to expand its governing board to include representatives from the Leonardtown area.

In addition, GWETA will maintain a public file within the city of Leonardtown.

For the foregoing reasons, GWETA believes that this application for a facility at Leonardtown will best meet the needs of the citizens in the area for public radio service at this time. The applicant therefore respectfully requests that Section 73.1125 of the rules be waived to the extent necessary.

Section V-B - FM BROADCAST ENGINEERING DATA

FOR COMMISSION USE ONLY

File No. _____

ASB Referral Date _____

Referred by _____

Name of Applicant

GREATER WASHINGTON EDUCATIONAL TELECOMMUNICATIONS ASSOCIATION, INC.

Call letters (if issued)

Is this application being filed in response to a window? ☐ Yes ☒ No

If Yes, specify closing date: _____

Purpose of Application: (check appropriate box(es))

☒ Construct a new (main) facility

☐ Construct a new auxiliary facility

☐ Modify existing construction permit for main facility

☐ Modify existing construction permit for auxiliary facility

☐ Modify licensed main facility

☐ Modify licensed auxiliary facility

If purpose is to modify, indicate below the nature of change(s) and specify the file number(s) of the authorizations affected.

☐ Antenna supporting-structure height

☐ Effective radiated power

☐ Antenna height above average terrain

☐ Frequency

☐ Antenna location

☐ Class

☐ Main Studio location

☐ Other (Summarize briefly)

File Number(s) _____

1. Allocation:

Channel No.	Principal community to be served:		
	City	County	State
219	LEONARDTOWN	ST. MARY'S	MD

Class (check only one box below)

☐ A ☐ B1 ☒ B ☐ C3

☐ C2 ☐ C1 ☐ C ☐ D

2. Exact location of antenna.

(a) Specify address, city, county and state. If no address, specify distance and bearing relative to the nearest town or landmark.

4.2 kilometers northwest of Leonardtown in St. Mary's County, MD

(b) Geographical coordinates (to nearest second). If mounted on element of an AM array, specify coordinates of center of array.

Otherwise, specify tower location. Specify South Latitude or East Longitude where applicable; otherwise, North Latitude or West Longitude will be presumed.

NAD-27

Latitude				Longitude			
	°	'	"		°	'	"
	38	19	13		76	40	10

3. Is the supporting structure the same as that of another station(s) or proposed in another pending application(s)?

☐ Yes ☒ No

If Yes, give call letter(s) or file number(s) or both. _____

If proposal involves a change in height of an existing structure, specify existing height above ground level including antenna, all other appurtenances, and lighting, if any. _____

SECTION V-B - FM BROADCAST ENGINEERING DATA (Page 2)

4. Does the application propose to correct previous site coordinates?

☐ Yes ☒ No

If Yes, list old coordinates.

Latitude ° ' "	Longitude ° ' "
---	--

5. Has the FAA been notified of the proposed construction?

☒ Yes ☐ No

If Yes, give date and office where notice was filed and attach as an Exhibit a copy of FAA determination, if available.

Exhibit No.

Date May 7, 1993 Office where filed Eastern Regional Office

6. List all landing areas within 8 km of antenna site. Specify distance and bearing from structure to nearest point of the nearest runway.

	Landing Area	Distance (km)		Bearing (degrees True)
(a)	<u>NONE</u>	<u> </u>		<u> </u>
(b)	<u> </u>	<u> </u>		<u> </u>

7. (a) Elevation: *(to the nearest meter)*

(1) of site above mean sea level; 34 meters

(2) of the top of supporting structure above ground (including antenna, all other appurtenances, and lighting, if any); and 84 meters

(3) of the top of supporting structure above mean sea level [(aX1) + (aX2)] 117* meters

(b) Height of radiation center: *(to the nearest meter)* H = Horizontal; V = Vertical

(1) above ground 74 meters (H)

74 meters (V)

(2) above mean sea level [(aX1) + (bX1)] 107* meters (H)

107* meters (V)

(3) above average terrain 89 meters (H)

* (a)(1) + (a)(2) and (a)(1) + (b)(1) do not add exactly due to rounding to nearest meter 89 meters (V)

8. Attach as an Exhibit sketch(es) of the supporting structure, labelling all elevations required in Question 7 above, except item 7(bX3). If mounted on an AM directional-array element, specify heights and orientations of all array towers, as well as location of FM radiator.

Exhibit No.
E-1

9. Effective Radiated Power:

(a) ERP in the horizontal plane 50 kw (H*) 50 kw (V*)

(b) Is beam tilt proposed? ☐ Yes ☒ No

If Yes, specify maximum ERP in the plane of the tilted beam, and attach as an Exhibit a vertical elevational plot of radiated field.

Exhibit No.

 kw (H*) kw (V*)
